

Parish Nurses are supported by a national charity, Parish Nursing Ministries UK.

We offer parish nurses local opportunities to meet, arrange study days, and support with making sure that professional frameworks are in place.

We promote and develop the concept of parish nursing among churches of all denominations and we want to see many more of them begin this work.

All nurses are regulated by the Nursing and Midwifery Council and work under its code of practice. If you would like to know more about this, please ask your Parish Nurse.

One aspect of this is a code of confidentiality, which means anything you tell your Parish Nurse will be kept private, unless you are being harmed, or are harming someone else. Any written information the Parish Nurse holds about you will be kept locked away.

Although your Parish Nurse is church-based, the details she holds on you for your care will not appear on any database or mailing list that the church may use for publicity or fund-raising without your permission. The church has a data protection policy in place.

If you have any concerns about the work of your Parish Nurse, you can speak to a leader at The Bay Church.

What is Parish Nursing?

Parish Nursing seeks to provide whole person health care through a local church community.

Based on Christ's teaching and ministry, as demonstrated in the parable of the Good Samaritan (Luke 10:25-37), Parish Nurses provide support for the physical, mental, social and spiritual health of individuals and aim to improve the lives of people in the UK by ministering health and wholeness.

Registered nurses work from their churches offering individuals and communities, personal health advice, advocacy support, health education, offer support groups, training and supporting volunteers, and helping people integrate their faith and their health.

Support from a Parish Nurse is available to people of all ages and backgrounds.

All services are free of charge.

Parish Nursing
Ministries UK

My name is Jackie Lincoln

I am a Parish Nurse with The Bay Church, Whitley Bay.

My nursing qualifications are RN. RHV. BSc(Hons) Nurse Practitioner. Parish Nursing Foundations of Faith Community Nursing .

I have worked in North Tyneside General Hospital as Senior Ward Sister. As a Health Visitor in the community and Nurse Practitioner in GP surgery. I trained as a Parish Nurse in 2016. I am registered with the Nursing and Midwifery Council.

I am available to offer support with your health needs. This may be to talk through your health and well being. It may be to support you in seeking the most appropriate care for your needs.

I work with a team of Health Ministry assistants. We all have current Disclosure and Barring Service checks in place.

The other members of the team are:
Sian Beck, Freda Billham,
Pat Carey, Sheila Clark,
Pat Hutchinson, Isabelle Kendall,
Lyn Wallwork and Pat Wright.

The aim of the Parish Nursing Team at The Bay Church is to improve the lives of people in our local church and the local community through whole person health care.

- We are available to offer support with your health needs, this may be to talk through your health and well being and support you in seeking the most appropriate care for your needs
- We aim to help prevent hospital admissions through early intervention and support
- Ensuring correct health services are accessed
- Help with medication and care advice
- Encouraging exercise and health nutrition so that preventable diseases are less likely to occur
- Providing blood pressure checks, pulse and weight checks
- We are also able to offer the opportunity for you to explore the spiritual aspects of your health care if you choose to
- We cannot offer any clinical treatments such as dressings or injections, but can support you in getting the care you need.

If you have an acute illness please contact your GP or telephone NHS 111 for advice.
Ring 999 for an emergency.
